BERRY BRIGHT
Protocol

glymed+

Recommended Treatment Time: 60 Minutes
Suggested Cost: $110 – $250

Description:
Revive dull, tired skin by infusing brightening actives like Lactic Acid and Bearberry Extract with potent antioxidants that help protect against environmental stressors and boost skin circulation. The result is a more radiant, refreshed and glowing complexion with renewed vitality.

CLEANSE

01 Dispense 1 pump of Peptide Firming Cleanser into dry palms and apply it to dry skin, massaging for 1 – 2 minutes. Add water for slip, then rinse with warm water.

02 Dispense 1 pump of Glycolic Facial Cleanser into your palms and emulsify it with water to create foam. Massage for 1 – 2 minutes, avoiding the eye area, then rinse with warm water.

TREAT

03 Dispense 1 – 2 tsps of AHA Astringent Prepping Agent into a small dish. Apply it to the skin using a saturated 4×4 woven gauze to remove all lipids from the surface.

04 Apply Cell Protection Balm to sensitive areas— eyes, nose and lips—using a cotton swab.

05 Dispense 2 – 3 tsps of Professional Exfoliator with 50% Lactic Acid and 2 – 3 tsps of Chocolate Masque into a small dish and mix. Apply it to the skin using a fan brush and allow it to remain on the skin for 10 – 15 minutes. Remove it with cool towels.

06 Mist the skin with CBD Skin Mist.

BALANCE

07 Apply Protective Skin Serum. Dispense 1 pump into your palms and apply it to the face, neck and décolleté.

08 Apply a grain-size amount of CBD Regenerative Eye Cream to the entire eye area and massage until it is absorbed.

09 Dispense 1 pump of Atraxi Peptide into your palms and apply it to the face, neck and décolleté, gently massaging until it is absorbed.

PROTECT

10 Finish with Hydrating Protection Gel with SPF 30. Apply a pea-size amount to the face, neck, décolleté and any other areas exposed to UVA/UVB rays.

11 Dispense Hydrating Lip Balm onto a cotton swab and gently apply it to the lip area.
